

x	-4	-3	-1	1
f	-1	3	-1	19

The diagram illustrates a sequence of points $(x, f(x))$ connected by arrows, showing a path through the function values. The points are $(-4, -1)$, $(-3, 3)$, $(-1, -1)$, and $(1, 19)$. The arrows indicate the following transitions:

- From $(-4, -1)$ to $(-3, 3)$
- From $(-3, 3)$ to $(-1, -1)$
- From $(-1, -1)$ to $(1, 19)$
